Omnicane is pleased to announce that it has just completed the acquisition of the full shareholding of Tropical Cubes Limited (TCL). TCL, a company involved in the manufacturing of rough cut cubes and packaging of sugar primarily for the export market, has been operational for nearly 25 years.

This acquisition aligns with the Group's strategy to develop a robust and innovative retail division across all its product lines. The integration of TCL is expected to create synergies with Omnicane's existing Dina product line and enhance market reach, particularly for exports.
